

NEXTAIR

Your next **flying** partner

## A BOUTIQUE AVIATION HOUSE BUILT BY PRIVATE JET OWNER, FOR PRIVATE JET OWNER

DESIGNED FOR OWNERS, BUILT AROUND YOU

Founded in 2019, Nextair is not just another aviation company, it's a boutique aviation partner, created by entrepreneurs and private jet owners seeking flexibility, efficiency, and full control over their travel.

**BORN FROM THESE EXACT NEEDS, NEXTAIR WAS BUILT TO PUT OWNERS FIRST, DELIVERING A TAILORED EXPERIENCE IN EVERY FLIGHT.**

We call ourselves a **"boutique aviation house"** : not because we are small, but because we are **tailored**. Every detail is crafted with precision, personalization, and the utmost care for those who fly with us.

*Crafted to serve owners, designed to exceed expectations.*

Nextair   <b>LIFESTYLE</b>	36

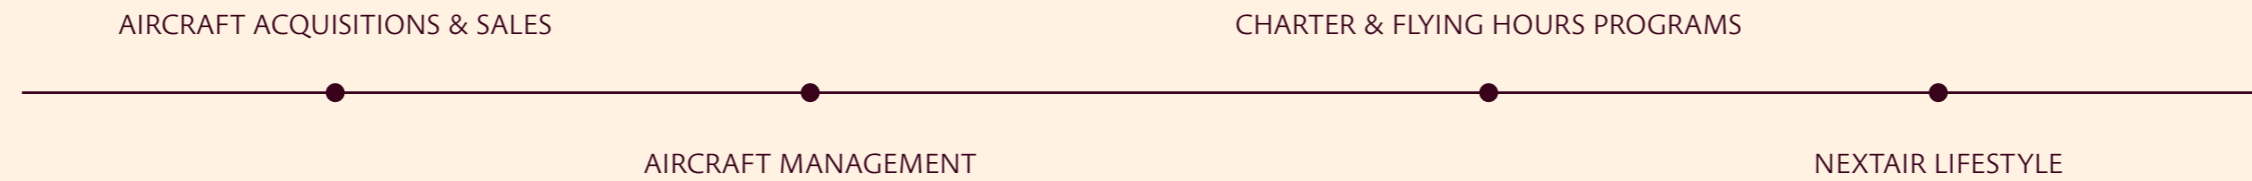

## ONE-STOP BOUTIQUE AVIATION HOUSE

Nextair is conceived as a one-stop boutique aviation house, designed to accompany clients across the entire private aviation journey within a single, coherent and highly curated structure.

From the earliest stages of aircraft acquisition to long-term ownership strategy, daily management, and controlled commercialization, Nextair brings together all essential areas of expertise under one roof. Charter solutions, global brokerage, and lifestyle services naturally complement this offering, creating a continuous and fluid experience for both aircraft owners and travelers.

Rather than navigating between multiple intermediaries, clients benefit from a single point of contact and a unified vision. Every phase of the journey is guided with the same level of precision, discretion, and consistency, ensuring informed decisions and smooth transitions at every step.

This integrated approach allows Nextair to remain agile and responsive, adapting seamlessly to evolving needs while maintaining a clear focus on what truly matters: operational excellence, personalized service, and long-term value. At every level, transparency and flexibility remain central to the Nextair philosophy.

## EXPERTISE AT THE SERVICE OF YOUR AVIATION ASSETS

Buying or selling an aircraft is a strategic decision that goes far beyond a simple transaction. It demands market intelligence, technical rigor, and absolute control of complex international frameworks. At NextAir, we manage your aircraft sales and acquisitions with the discipline of a dedicated in-house department and the agility of a boutique advisory firm.

Our expertise spans the full spectrum of business aviation, from versatile turboprops to the most sophisticated heavy jets and bizliners. Each mandate is approached as a bespoke project, where in-depth technical analysis meets a precise command of legal, regulatory, and administrative environments worldwide. We do more than close deals. We **secure your investment, protect your interests, and maximize your asset's value** in the global market. Our methodology is built on five core pillars:

### **Sourcing & Appraisal**

Comprehensive visual inspections of airframe and cabin, combined with exhaustive aircraft history reviews to establish accurate and defensible market valuations.

---

### **Commercial Strategy**

Targeted global marketing through proprietary networks, professional aircraft presentations to qualified buyers, and expert negotiation to achieve optimal terms.

---

### **Technical Supervision**

On-site coordination and oversight of pre-purchase inspections (PPI), ensuring full technical compliance and risk mitigation throughout the process.

---

### **Administrative Management**

End-to-end handling of de-registration, certification, and complex international export and import tax structures.

---

### **Global Legal Coordination**

Close coordination with specialized aviation law firms across key jurisdictions to ensure seamless, secure, and transparent title transfers.

## AIRCRAFT MANAGEMENT SERVING OWNERS FIRST

It all began with a simple idea: to make **aircraft ownership work better**. Our founders, both entrepreneurs and private jet owners themselves, understood firsthand the need for freedom, control, and reliability in air travel. Frustrated by rigid airline structures and inflexible solutions, they envisioned a model that truly puts the owner at the center.

This owner-first mindset shapes every service we provide. Our boutique size is our advantage, it allows us to deliver **highly personalized aviation solutions**, with meticulous attention to detail and complete operational flexibility.

Our mission is clear: to be the most aligned, trusted partner you have ever had in aviation.

Whether your operations fall under NCC (Non-Commercial Complex) or require full CAT (Commercial Air Transport) compliance, we offer **a fully adaptable structure tailored to your needs**, ensuring ownership remains effortless, efficient, and entirely under your control.

## MAXIMIZING YOUR AIRCRAFT'S STRATEGIC VALUE

**Guided Ownership :** Owning an aircraft requires navigating a multitude of critical choices, from selecting service providers and professional crews to managing maintenance, operational costs, and charter revenue. Nextair provides independent, expert guidance at every step, ensuring that each decision is fully aligned with your long-term objectives and your personal vision for ownership.

**Optimized Operations :** Our team conducts comprehensive audits of your operational setup, analyzing expenses, uncovering opportunities, and designing solutions to enhance efficiency. From crew scheduling and flight planning to day-to-day operations, we focus on reducing overheads, improving performance, and ensuring seamless execution. Every aspect of your aircraft's operation is managed proactively, allowing you to fly with confidence and clarity.

**Transparency & Enhanced Value :** Every aspect of ownership is carefully reviewed and optimized from charter management to maintenance planning and operational workflows. Nextair ensures your aircraft operates efficiently, reliably, and strategically, transforming ownership into a real advantage. By combining operational excellence with expert commercial oversight, we make your aircraft a productive asset while keeping full control, complete transparency, and flexible management firmly in your hands.

## TURN YOUR AIRCRAFT INTO REVENUE

At Nextair, we create **tailored strategies to commercialize your aircraft** in a way that respects your privacy, preferences, and operational needs. We don't simply list your aircraft in a charter system; we carefully design each plan to **maximize flight activity and revenue**, ensuring that your asset works efficiently for you.

Our approach is unique: we only make money when you do. This alignment of interests means that every decision, every flight, and every charter opportunity is focused entirely on generating value for you.

Thanks to our lean and agile structure, the benefits go straight to the owner: increased income, optimized ownership costs, and complete control over aircraft availability. With Nextair, your aircraft works smarter, generating revenue while maintaining full control and flexibility.

*Your aircraft, our mission.*

## CHARTER FLIGHTS : ON-DEMAND, FULLY TAILORED

Nextair operates a **modern, carefully curated fleet**, providing private aviation solutions designed to meet the expectations of both occasional and frequent travelers. Our charter offering is built around **two complementary programs**, each delivering the same uncompromising standard of service and a truly seamless experience from start to finish.

### **CHARTER ACCESS**

Charter Access is our on-demand solution, designed for travelers who value flexibility without compromise. Every flight is fully tailored, from ground transportation to onboard service, including chauffeur arrangements, refined catering, and personalized cabin configurations. Each journey is seamless, intuitive, and effortless. Pricing is fully transparent, flexibility is complete, and there are no hidden fees, ensuring that every aspect of the travel experience meets the highest standards of comfort and discretion.

### **FLYING HOURS PROGRAM**

For frequent travelers, Nextair offers the Flying Hours Program, built around predictability, priority access, and efficient planning. Through a monthly subscription, clients benefit from fixed hourly pricing with no cost variations, enhanced availability with just 72 hours' notice, and guaranteed access to a suitable aircraft for all their annual travel requirements.

Beyond our own fleet, this program provides access to a network of exclusively selected partner aircraft, ensuring that a high-quality, well-maintained aircraft is always available for every trip, no matter the location or duration. By combining the freedom of on-demand charter with the certainty of long-term planning, the Flying Hours Program allows clients to seamlessly provision all their annual travel with confidence and peace of mind.

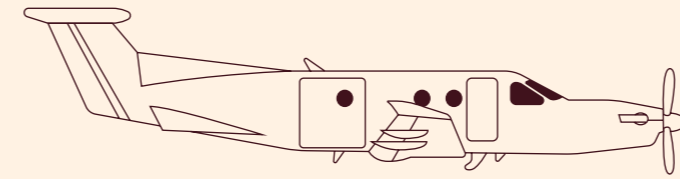

## OUR FLEET

At Nextair, we operate a carefully curated fleet built to meet the demands of modern business aviation. From turboprops to light and mid-size jets, our aircraft are selected and managed to deliver mission-ready solutions : combining **flexibility, reliability, and operational efficiency**.

**For aircraft owners,** joining Nextair means gaining seamless access to a versatile fleet at all times, ensuring the right aircraft is always available to meet client needs. Short or long runways, light or larger aircraft : you are always connected to the optimal solution to fly closer to every destination, in the best conditions of comfort, efficiency, and reliability.

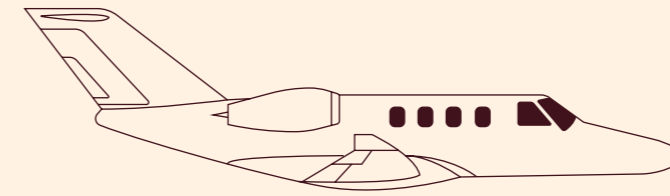

**For charter clients,** Nextair provides seamless access to professionally managed aircraft, available without operational constraints, operated under the highest standards of compliance and care : supported by responsive coordination and a refined, boutique-level flying experience.

*The right aircraft. The right mission. Every time.*

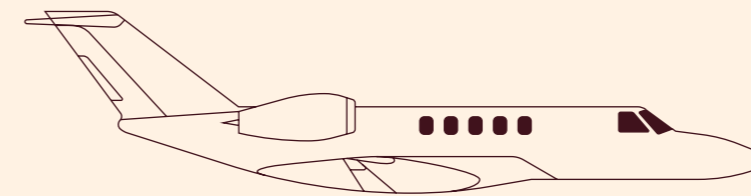

## PILATUS PC-12

The Pilatus PC-12 is a versatile single-engine turboprop offering excellent range, comfort, and access to short or remote runways. With a spacious cabin for up to 8 passengers, it's perfectly suited for regional business travel.

## CESSNA CITATION M2

The Cessna Citation M2 is a light jet combining performance, comfort, and advanced avionics, ideal for short to mid-range missions. With seating for up to six passengers, it offers excellent speed and access to smaller airports.

## CESSNA CITATION CJ4

The Cessna Citation CJ4 is a light jet combining performance, comfort, and advanced avionics, ideal for short to mid-range missions. With seating for up to eight passengers, it offers excellent speed, extended range, and access to smaller airports.

## **PILATUS PC-12** ULTIMATE VERSATILITY. UNCOMPROMISED FREEDOM.

The Pilatus PC-12 is one of the most versatile aircraft in private aviation, combining exceptional reliability, cabin comfort, and unmatched operational flexibility. Designed for owners and travelers who value access and adaptability as much as comfort, the PC-12 redefines what a single-engine turboprop can deliver.

Renowned for its ability to operate from short and challenging runways, the PC-12 opens access to destinations unreachable by most jets. From regional business flights to leisure travel in remote locations, it offers a unique combination of performance, efficiency, and peace of mind.

Inside, the cabin stands out for its generous space, quiet atmosphere, and refined finish. The flat floor, large windows, and flexible layout create a comfortable environment for working, relaxing, or traveling with family. The PC-12 is equally suited for business efficiency and lifestyle travel, making it a cornerstone of the Nextair fleet.

The Pilatus PC-12 perfectly embodies Nextair's philosophy: freedom of movement, intelligent performance, and absolute reliability.

## CESSNA CITATION M2 EFFICIENCY MEETS REFINEMENT.

The Cessna Citation M2 embodies a new generation of light jets, combining performance, comfort, and operational efficiency in a perfectly balanced aircraft. Designed for short to mid-range missions, it is ideally suited for regional and European travel, offering speed and flexibility without compromise.

Its modern cockpit and optimized performance allow access to a wide range of airports, including shorter runways, bringing passengers closer to their final destination while significantly reducing travel time. This operational versatility makes the Citation M2 an exceptional tool for both business and leisure travel.

Inside the cabin, the experience is defined by simplicity, elegance, and comfort. The refined layout offers a quiet and welcoming environment, ideal for working in flight or enjoying a relaxed journey. High-quality materials, intuitive design, and generous natural light create a sense of space well beyond what is expected in its category.

The Citation M2 reflects Nextair's philosophy: a smart, reliable aircraft that delivers performance where it matters most, while ensuring a seamless and refined travel experience.

## CESSNA CITATION CJ4 MORE RANGE. MORE SPEED. PROVEN EFFICIENCY.

The Cessna Citation CJ4 stands as a reference in the light jet category, renowned for its performance, versatility, and operational reliability. Designed for short to mid-range missions, it offers a fast, efficient, and comfortable alternative to commercial travel, perfectly suited for both regional and cross-continental flights.

With its ability to operate from shorter runways and secondary airports, the CJ4 provides direct access to a wide range of destinations, bringing passengers closer to their final point of arrival while significantly reducing overall travel time. Its balance of speed, range, and payload makes it an ideal solution for high-frequency business travel as well as premium leisure missions.

Inside the cabin, the CJ4 offers a quiet, spacious, and refined environment. The thoughtfully designed layout provides ample room to work or relax in flight, enhanced by generous natural light, modern finishes, and a comfortable seating configuration for up to eight passengers.

The Citation CJ4 perfectly reflects Nextair's vision of modern business aviation : combining performance, comfort, and efficiency in a reliable and accessible aircraft, designed to deliver uncompromised value on every mission.

The Citation Mustang reflects Nextair's philosophy of smart, efficient aviation : reliable, accessible, and designed to deliver value without comprom

## ALWAYS THE RIGHT AIRCRAFT FOR EVERY MISSION

Beyond our own fleet, Nextair provides seamless and permanent **access to an extensive network of carefully selected partner-operated aircraft**, ensuring that the most suitable aircraft is always available to match each specific mission. This model allows us to go far beyond fixed fleet limitations and consistently deliver solutions tailored to our clients' exact operational needs.

From long-range international journeys to short-haul regional flights, and from turboprops and light or mid-size jets to helicopters, our charter offering is built around **flexibility and adaptability**. Each mission is assessed individually, enabling us to select the aircraft that best aligns with range requirements, runway characteristics, passenger capacity, cabin comfort, and overall mission complexity.

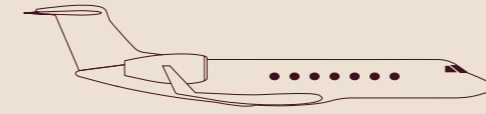

This flexible access to a diversified fleet ensures optimized performance, operational efficiency, and reliability on every flight, without compromise. Clients benefit from the assurance that every journey is operated under approved and trusted AOCs, with Nextair acting as **a single point of contact** for coordination, supervision, and quality control.

Through this integrated approach, Nextair delivers a consistent, high-standard, and boutique-level charter experience across all aircraft categories, combining operational excellence with a refined and client-focused service philosophy.

## UNCOMPROMISING SAFETY, EVERY FLIGHT

At Nextair, your safety is our top priority. Every decision, procedure, and investment is designed to ensure that every flight meets the highest standards of operational excellence.

**Expert Training & Rigorous Standards :** Our pilots and crew undergo continuous training in state-of-the-art simulators and accredited programs, ensuring they are prepared for every scenario. Aircraft maintenance, operational procedures, and crew readiness are continuously audited against the strictest international standards, guaranteeing reliability and compliance at every level.

**Advanced Monitoring & Risk Management :** Nextair employs a dedicated team of flight operations and safety experts who continuously monitor aircraft performance and crew operations. Leveraging predictive tools and data analytics, we proactively manage potential risks, including fatigue, weather, and operational contingencies, to maintain optimal safety at all times.

**Continuous Improvement :** Safety at Nextair is never static. We regularly collaborate with aviation authorities and industry partners to implement new procedures, optimize operations, and advance our safety culture. Every flight benefits from decades of experience, rigorous oversight, and a commitment to excellence that makes safety seamless and invisible : giving you peace of mind from takeoff to landing.

## EVERY DETAIL ANTICIPATED

At Nextair, family travel is designed to be **effortless and enjoyable for every passenger**. Traveling with children? We carefully anticipate their needs, providing age-appropriate activities, toys, and games that keep them engaged and happy throughout the flight. Every journey is arranged so that young travelers enjoy the experience as much as adults, allowing parents to relax and focus on the journey ahead.

Every flight is **tailored to the preferences of your family**. From special snacks and favorite treats to personalized arrangements in the cabin, nothing is left to chance. Nextair ensures that all members of your party : from the youngest to the most discerning adult, feel comfortable, attended to, and perfectly at ease throughout the journey.

**Traveling with pets** is equally effortless. Your four-legged companions are welcomed on board, with every precaution taken to ensure their comfort and safety. Nextair manages all the details, so every member of the family experiences the flight as smoothly and pleasantly as possible. Boarding a Nextair aircraft means stepping into **a space where care, comfort, and seamless service** are embedded in every detail, turning travel into a shared moment of relaxation and enjoyment.

## YOUR AIRCRAFT. YOUR LOUNGE. YOUR OFFICE.

Every Nextair flight is designed with **discretion as a cornerstone**. Sensitive discussions, strategic planning, or confidential communications can take place in complete confidence, away from the distractions and visibility of conventional travel. The cabin becomes **a secure and private environment** where executives can work, meet, or make decisions without compromise, ensuring that confidentiality is preserved at all times.

Traveling with Nextair transforms **in-flight time into productive, seamless work sessions**. The cabin layout, ergonomic seating, and high-speed connectivity are tailored to support multitasking, virtual meetings, document review, and agenda management. Whether preparing for high-stakes meetings or debriefing after a full day of engagements, every element is designed to optimize focus and operational effectiveness, turning travel into a strategic asset rather than downtime.

Beyond efficiency, the cabin offers refined **comfort and the flexibility of a true office in the sky**. Work surfaces, intuitive storage, lighting, and climate controls combine to create a productive and welcoming environment. Executives can seamlessly shift between work and relaxation, arrive at their destination refreshed, and extend the functionality of their office into the air. Every detail is engineered to make the journey as effortless and comfortable as it is effective, embodying Nextair's philosophy of intelligent, luxury-driven corporate travel.

## WHERE AVIATION MEETS A WAY OF LIFE.

Nextair is **more than an aviation house**. It is an invitation to a refined lifestyle shaped by freedom, discretion, and access. Joining Nextair means entering a private ecosystem designed for individuals who value experiences as much as efficiency, and who expect excellence well beyond the aircraft cabin.

Our philosophy extends naturally beyond flight. Travel is not limited to the journey itself, it is defined by everything that surrounds it. From the moment you depart to the moment you arrive, every element is curated to elevate the experience.

Through a carefully selected network of partners, Nextair opens the doors to a **world of exclusive privileges**. Privately managed villas in exceptional destinations, access to exclusive yachts, discreet members-only clubs, and a portfolio of high-end hotels and resorts are seamlessly integrated into your travels. Each experience is selected for its authenticity, privacy, and uncompromising standards.

We also offer access to **private events and tailored experiences** reserved for our clients and their guests. These moments are designed to foster connection, inspiration, and unforgettable memories, in environments where discretion and excellence are paramount.

With Nextair, aviation becomes the **gateway to a lifestyle**. One where every journey is enriched, every destination is elevated, and every experience reflects the same values: freedom, elegance, and absolute attention to detail.

## DOMAINE PRIVÉ DE PUNTA D'ARASU : A CORSICAN SANCTUARY.

Discover the Domaine privé de Punta d'Arasu, a **secluded beachfront estate within one of Corsica's most prestigious private domains**. The villa spans 700 m<sup>2</sup> over two levels, offering a vast living area, dining room, independent kitchen, and terraces with panoramic sea views. Eight bedrooms, including four master suites, ensure comfort and privacy, complemented by a gym, cinema room, and beautifully landscaped gardens.

Set on nearly 8,000 m<sup>2</sup> of Mediterranean flora, the property features an infinity pool, jacuzzi, and a fully equipped pool-house. Just steps from pristine beaches and near Figari International Airport, it combines natural beauty with convenient access. Guests can enjoy leisurely mornings overlooking the sparkling sea, alfresco dining under the Corsican sun, or serene evenings by the pool, all within a private and secure environment.

Every detail is designed to enhance comfort and serenity, while Nextair's bespoke concierge service ensures housekeeping, linen, and tailored support are taken care of, creating a sanctuary where time slows and every moment feels effortlessly exceptional.

*Every arrival. Every villa. Perfectly curated.*

## BEYOND THE RUNWAY : A PRIVATE YACHT EXPERIENCE

At Nextair, aviation is only the beginning of the journey. We believe that the destinations our clients reach should uphold the same exacting standards of discretion, comfort, and operational excellence that define our flights.

To achieve this, we have built **a privileged network of partners across the yachting sector**, each chosen for their expertise, reliability, and commitment to excellence. This network encompasses every facet of yacht ownership and operation : from acquisition guidance, technical oversight, and crew management, to maintenance, provisioning, and bespoke onboard experiences.

By leveraging these relationships, Nextair ensures that each client can enjoy yachting with the same seamless service, privacy, and attention to detail they expect from their aviation experience. Every voyage is carefully curated to harmonize with the broader lifestyle we offer, transforming the yacht from a mere vessel into a private, mobile sanctuary.

Whether navigating secluded coves, exploring iconic coastlines, or hosting intimate gatherings at sea, each journey is designed to deliver sophistication, effortless enjoyment, and the distinctive freedom that defines the Nextair lifestyle.

## L'AS BLEU : A MEDITERRANEAN ICON

Step aboard L'AS BLEU, the Riva 82' Diva built in 2025 : **the newest icon of Italian style**, available for charter for the very first time.

Her innovative beach club with two folding terraces brings you closer to the sea, while the expansive flybridge is designed for sun-soaked days, sunset dinners, and unforgettable moments with family and friends. Inside, chic contemporary interiors feature four en-suite cabins accommodating up to eight guests, offering both comfort and elegance.

Equipped with stabilizers for maximum comfort, a cruising speed of 27 knots, and a top speed of 30 knots, L'AS BLEU delivers the **ultimate Mediterranean experience**. Available across the South of France, Corsica, Sardinia, and the Italian coast, this yacht embodies style, sophistication, and freedom, allowing Nextair clients to enjoy a private, bespoke adventure at sea that mirrors the seamless excellence of their aviation journeys.

*From takeoff to anchorage. Every experience, curated.*

## AVIATION DESIGNED AROUND YOU

At Nextair, our ambition isn't to be the biggest : it's to be the most relevant to those we serve. We align every service with what truly matters to our clients, combining the flexibility of a boutique structure with the standards of a professional operator.

From acquisition to operations, from aircraft marketing to charter execution, every step is handled with precision, purpose, and a deep understanding of the owner's perspective.

This is **more than aviation**. This is **aviation with purpose**.
